## The Same Old Sun

## **The Alan Parsons Project**

Tell me what to do

Now the light in my life is gone from me
Is it always the same
Is the night never ending

Tell me what to do
All the hopes and the dreams went wrong for me
There's a smile on my face
But I'm only pretending

Taking my life
One day at a time
Cause I can't think what else to do
Taking some time
To make up my mind
When there's no one to ask but you

The same old sun would shine in the morning The same bright eyes would welcome me home And the moon would rise way over my head And get through the night alone

And the same old sun would shine in the morning The same bright stars would welcome me home And the clouds would rise way over my head I'll get through the night on my own

Tell me what to do

Now there's nobody watching over me

If I seem to be calm

Well, it's all an illusion

Tell me what to do

When the fear of the night comes over me

There's a smile on my face

Just to hide the confusion

Taking my life
One day at a time
Cause I can't think what else to do
Taking some time
To make up my mind
When there's no one to ask but you

The same old sun would shine in the morning The same bright eyes would welcome me home And the moon would rise way over my head I'll get through the night alone

And the same old sun would shine in the morning The same bright stars would welcome me home And the clouds would rise way over my head I'll get through my life on my own
