

# Dead Happy

The Almighty

I don't feel like struggling to-day  
I've got to find a better way  
I guess I should have known  
That we'd be better off alone  
So let my past speak for myself  
Don't make me repeat myself  
I've got the scars to prove  
My latest tendencies

[Chorus]

All I want is everything  
Coz nothing changes everything  
All I want is everything you've ever taken  
I've got to open my eyes  
I live with them closed to much sometimes  
Clean my wounds what a mess  
The things I used to have I don't miss  
Looking for the friends you'll never find  
Everything used to be better than this  
What's the point in making stands  
When making sense makes no sense

[Chorus]

You can't tell me how to feel anyomre  
You can't tell me what to feel anyomre  
It doesn't matter anyhow  
Coz we're dead happy now
