

Do You Understand

The Almighty

I think its time that you realized
Nothing means nothing to me... anymore
Its easy to use the right words
But say the wrong things
Thought I knew what I wanted
Now I don't know for sure
You always hate the ones you love
Everybody's had us we're all used up
Sometimes these things don't go the way there planned
Do you do you understand?
Do you do you understand?
Do you understand?
Do you understand?
I can't stop myself from thinking
Trying to get the picture in the right frame of mind
Infected with reasons and touched by lies
All I see is nothing when I look behind
Go out and get burned
Last chance to forget what we learned
They'll never show the other hand
Do you do you understand?
Do you do you understand?
Do you understand?
Do you understand?
You always hate the ones you love
Everybody's had us we're all used up
Sometimes these things don't go the way there planned
Do you do you understand?
Do you do you understand?
Do you understand?
Do you understand?
Do you understand?
Do you understand?
