

# Apologetics

## The Ambassador

[Chorus]

I live and die for what I believe in  
Represent the truth of God's Word every season  
Since I'm the reason for His bleedin'  
Now I represent Him 'til the day I stop breathin'

[The Ambassador]

There's a war, and I can tell you straight from the door that it's raw  
Not for the weak it's for the hardcore  
Rugged soldier, this rugged brother told ya, "I love Jehovah"  
I love like women love Montel and Oprah  
We're getting' close to the rapture Maranatha  
Coming soon is the Master try and capture  
The idea, the incarnate God coming right here  
Christ, yea, rulin' planet earth in His white gear  
I hear you say He's not, trying to take away this hope we've got  
But we're not shook so we drop jams, we're out to show He's got  
The ability to save like coupons at the grocery spot  
Defend the faith are you with it, my crews with it  
Christ died, love had everything to do with it  
Before Christ we loved secular life but now we're through with it  
We don't fool with it, if Jesus Christ aunt down we isn't cool with it  
Who is it that wants to hustle, tussle, flex muscle  
Defend the Christian faith and the text plus you'll  
Do some Jesus advertising, join the theocratic side and  
We'll see the Son risin'

[Chorus]

[The Ambassador]

Will the real Jesus please stand up, wait there's eight of them  
Nine of them, a whole line of them, there's all kinds of them  
Is it the one with dreds or the blond head  
The one with blue eyes or the one hangin' between those two guys  
Or the one that they say is just a prophet  
He nothing special, He's just the one before Mohammed  
Or the archangel or the man healing on T.V  
Or the other cat that's leading masses up to D.C  
Or is He the eternal God of all creation, Lord of all the nations  
The Sovereign, even the boss of Satan  
The one making the world spin, keeping high winds twirling'  
While He's getting' it on in the world wind  
He made the sheep that made the fur for your shirlin'  
Even made the oyster that made your pearls and  
Matter of fact He made your boy, or, your girlfriend  
Strong enough to put Jupiter on a bar and start curlin'  
This one seems to be fittin' the true description  
Of the one that gets in, fits in hearts and then convicts them  
You should pick Him, because He conquered crucifixion  
He took a lickin' but I tell you He kept on tickin'

[Chorus]

[The Ambassador]

I continue to preach Christ earth is my venue  
Like McDonald's fries, He's the best thing on the menu  
When you defend Christ it could be hazardous

But if you die you're going to live again like Lazarus  
Plus add to this the reward of bringing fabulous  
Truths that transform cause the Lord be changing characters  
Let's get equipped to represent Him in an industry  
Where they preach a different Christ and reject the trinity  
And when they see us loving while they're all hatin'  
And when they hear us call God while they call Satan  
They'll say the people of God be getting busy like a phone with no call wait  
in'  
The falls breakin'  
Men's backs as the ax cuts the access to the King's palace  
And that's just utter blackness, in fact, sin puts heads to bed like a  
mattress

[Chorus]
