

## Ivy (Doomsday)

### The Amity Affliction

I will cover you like ivy  
And choke out all the light  
Baby, I could be your Doomsday  
Let you know "We'll be alright"  
'Cause I've got heaven in my veins  
But heaven doesn't numb my pain

I could be your Doomsday  
I could be your worst ever nightmare  
I could be your Doomsday  
I could be your worst ever nightmare

It feels like I could sink forever  
And I am anchored in your heart  
So down to hell we go together  
I was your Doomsday from the start  
'Cause I've got heaven in my veins  
But heaven doesn't numb my pain

I could be your Doomsday  
I could be your worst ever nightmare  
I could be your Doomsday  
I could be your worst ever nightmare

We can watch the world burn  
We can watch the world burn  
Smoke will choke out all the light  
We can watch the world burn  
We can watch the world burn  
Smoke will choke out all the light  
Baby, I could be your Doomsday

I could be your Doomsday (Doomsday)  
I could be your worst ever nightmare  
I could be your Doomsday (Doomsday)  
I could be your worst ever nightmare
