

# Let The Night Roll On

The Angels

Riding on a lucky wheel of seventeen  
I think I'm gonna live to be a hundred and three  
Feel like wild card, what you say  
A slice of the night gonna come my way  
Walking through the city  
I'm a king of surprise  
My midnight champagne's ready on ice  
It's Saturday night, I got nerves of steel  
I can roll all night on a roulette wheel

Let the night roll on  
I'm looking for hell  
Let the night roll on  
I'm making a kill

It's Saturday night  
I've waited so long  
Let the night roll on

Playing along with the rest of the world  
Saxophone women, satisfied girls  
I'm a wound-up string on a violin  
The future's gonna take me where I've never been  
I could be naked Sunday with nothing to wear  
I wouldn't know it, I wouldn't care  
It's Saturday night, I got nerves of steel  
I can roll all night on a roulette wheel

Let the night roll on  
I'm looking for hell  
Let the night roll on  
I'm making a kill

It's Saturday night  
I've waited so long  
Let the night roll on

(Let the night roll on)  
I'm looking for hell  
(Let the night roll on)  
I'm making a kill

It's Saturday night  
I've waited so long

(Let the night roll on)  
(Let the night roll on)  
(Let the night roll on)...looking for hell  
(Let the night roll on)...making a kill
