

## Stay Away

The Angels

Hey I was too busy, why won't you call?  
I never listen to what I was told  
Stay away from me  
You may stay away from me  
The room was so noisy  
The voices that's far  
The music and red wine and another pint bar  
He said 'Stay away from there'  
You never stay away from there  
It's that girl again  
Why do you wanna see her?  
Do you know its no use?  
She's gonna hang your loves career  
I had enough now of your good advice  
I'm making my own mind,  
And I'm forming pain events  
Please stay away from me  
You're full of cheap wisdom  
Your fingers will burn  
Talk to the law, coz schools never learn  
Stay away from here, aaaahh  
Stay away from here...
