

Sticky Little Bitch

The Angels

In far away places you got to be patient
You can't eat cake when your house breaking
Out there now you can hear the sound
The Dragon is comin' from Asia

You're such a sticky little bitch
Think you got it all
Just hope you don't know more than I know
A sticky little bitch
Think you got it made
Just hope you don't know more than I know

Well I could be happy, just runnin' with the pack
I could be livin' in clover
But your web is spread when you got your suit
And it's shot through with blue and danger

You're such a sticky little bitch
Think you got it all
Just hope you don't know more than I know
You're such a sticky little bitch
Think you got it made
Just hope you don't know more than I know

I know...

Beauty and the Beast well they never mixed well
Like oil and water well I always felt
You're gonna hafta shoot to get your ladies
Faded robe and you know you go
And the Dragon is comin' from Asia

You're such a sticky little bitch
Think you got it all
Just hope you don't know more than I know
You're such a sticky little bitch
Think you got it made
Just hope you don't know more than I know

Sticky

Ahh - ahh - ahh - sticky
