

Follow The Sound

The Autumn Film

Parachute down, down this old tree release yourself to bring you to me

I will look up, watch you come down straight from the branches like leaves to the ground...

Oh oh ohh Oh oh ohh

[instrumental]

And if you go drifting up, I will be here beneath the clouds.

And if you can't find your way, hear my voice, follow the sound .

Ooh ooh ohh Ooh ooh oh ohh

If you get lost, I'll be your light. Out of the shadows that capture your sight.

And if you go drifting of, I will be here beneath the clouds.

And if you can't find your way, hear my voice follow the sound.

And if you go chase the stars, I'll be your feet that touch the ground.

And if you can't find your way, hear my voice follow the sound.
