

## Part From Me

The Avett Brothers

I was scared but I couldn't admit it  
Hatred planted out of fear  
If I had, If I had no choice but to hit it  
The road, it calls on me my dear

I was lost as lost can be  
Being praised for being found  
But all that praise got lost on me  
As a mood swing was headed down

Part from me  
I would not dare take someone in love with me  
Where I'm going  
Apart you'll see  
How true it is and how back then  
It possibly was impossible for you or me to know it

Your touch was nothing more  
Than a child's goodbye and hello  
But it always left me feeling  
Worse when it was time to go

Part from me  
I would not dare take someone in love with me  
Where I'm going  
Apart you'll see  
How true it is and how back then  
It possibly was impossible for you or me to know it

And most of us out there got fooled  
Cause the gold it glittered in the night  
And we chased it fast like drunk buffoons  
The banker lived the artist died

And all our clothes were washed in gray  
All our buildings and our cars  
As the fluorescent light of day  
Bleached the sky into the stars

Part from me  
I would not dare take someone in love with me  
Where I'm going  
Apart you'll see  
How true it is and how back then  
It possibly was impossible for you or me to know it
