

## Bleeding

## The Awakening

Breathe into my mouth  
Breathe into my world  
I was something else  
And you are still unreal

Open up my sky  
Open up my veins and burn  
All the silence down  
And you are still unreal

Breathe into my mouth  
Bleed into my world  
I was never here  
But you are still unreal

You're still unreal

You should see me when I'm down
