

Stay the Night

The Babys

Ever have those dreams at night
The ones where everything goes right
Lovin' squeezin' you so tight
I never want to wake up
It's mornin' time, put on my shoes
I got no time to sing the blues
Cuz my luck has just come in
And we are on our way

Can you feel it?
Do you believe it?

Stay the night, come on, stay the night
(I want to stay the night)
Who needs dreams when you're by my side?
C'mon stay the night (Stay the night)

Walkin' on the sandy beach
Your hand is just out of reach
Fingers pointing to a spot
Where we can spend the day
Later when we leave the shore
We both are wantin' somethin' more
That rooftop bob will do just fine
I'll set the cadence, you divine

Can you feel it?
Do you believe it?

Stay the night, come on, stay the night
(I want to stay the night)
Who needs dreams when you're by my side?

C'mon stay the night (Stay the night)

Stay the night, come on, stay the night
(I want to stay the night)
I said nothing's wrong oh it's alright honey
If you'd stay the night (Stay the night)

If you'd stay
If you'd stay
If you'd stay, yeah

Ever have those dreams at night
The ones where everything goes right

Stay the night, come on, stay the night
(I want to stay the night)
I said who needs dreams when you're by my side honey
Oh stay the night (Stay the night)

Stay the night, come on, stay the night
(I want to stay the night)
I said nothing's wrong oh it's alright honey
C'mon stay the night (Stay the night)

If you'd stay

Roaming tension's round to miss
Could this night end in bliss
Laughing flirting our first kiss
And off we go
