

Under The Volcano

The Bears

Hold me closer - keep your distance
Tell me your secrets - mind your own business - sally
We had everything - under the volcano
We watched our laughing children sing - under the volcano
You thought that i was beautiful - under the volcano
A hundred thousand years ago - under the volcano
Hell is here on earth, you know - under the volcano
When you top the bill at a freak show - under the volcano
Where the flesh is weak and the minds are slow - under the volcano
ano
A waterbed on a lava flow - under the volcano
