

Purgatory

The Berzerker

I've taken torment to a new level of suffering
Agony, enemy

In my life
Few people have let me down
And I've learnt
The best revenge is served stone cold
Creeping up
So they'll never see it coming
I lift them up
Only to bring them crashing down

If only I could have all that I wanted
To punish the ones that committed these crimes

It will make the difference and be savage
We've all got the power, in my evil design

In my life
Few people have let me down
And I've learnt
The best revenge is served stone cold
Creeping up
So they'll never see it coming
I lift them up
Only to bring them crashing down

When I've thought is it too much to take
I remember that they tried to crush me
It's important that they feel the pain
More like I get pleasure from it
I've gone so long without hurting
Whose who've tired there best to fuck me
And now I-see they-feel the pain
When I place them in purgatory

If only I could have all that I wanted
To punish the ones that committed these crimes

It will make the difference and be savage
We've all got the power, in my evil design

In my life
Few people have let me down
And I've learnt
The best revenge is served stone
Cold
Creeping up
So they'll never see it coming
I lift them up
Only to bring them crashing down
