

# She's The One

The Beta Band

Falling through the floor  
With the friend I had before  
Grabbing at straws  
So the holes don't slow me down  
Coming up next  
The lizard and the  
Showing me the ropes  
Don't be giving up your hopes  
Trickle downstream  
With the underwater steam  
on the side  
He's a looking for a dream

She's The One for me  
She's The One for me  
She's The One for me  
She's The One for me  
(She's The One for me x repeated)

Falling through the floor  
With the friend I had before  
Grabbing at straws  
So the holes don't slow me down  
Coming up next  
The lizard and the  
Showing me the ropes  
Don't be giving up your hopes  
Trickle downstream  
With the underwater steam  
on the side  
He's a looking for a dream  
Give up the try  
For the everlasting life  
Never grew upside  
So I keep it all inside  
Fat girl ticklelish  
Crazy Miss Stimulus  
Falling on your face with your stupid line brace  
Saying, Pop goes the weasel as he paints another easel  
Grab a piece of pie, she's your chicken in your eye  
Push out the boat 'fore the river runs dry  
Drinking in the watersun, pucking on the egg fry  
With my super line  
With my super line  
I never threw before so I never found the reason  
Walk, fall, doesnt stall, blowing in the breezin'  
Holding on the side, just a painting for the season  
Walk, fall, doesnt stall, blowing in the breezin'  
She's the one for me
