Troubles

The Beta Band

It's about time that we fell in love
You know that I've been trying
It's about time that we had a laugh
You know that I've been crying

Too many people, too many troubles
Too many mouths are lying
If everybody laughed for just one day
You know that'd make me happy

Too many troubles, too many troubles
Don't know how we live so long
Too many troubles, too many troubles
It's time for us to live and laugh

It's about time that I said hello
To all those lonely people
When I was at the back who could never talk back
Through all the tears and sadness

You never really know who's there beside you
Who will be your comfort
If everybody laughed for just one day
You know that'd make you happy

Too many troubles, too many troubles
Don't know how we live so long
Too many troubles, too many troubles
It's time for us to live and laugh
