

Lovey Dovey

The Bird and the Bee

Come to me my little dove
I won't let the cat in to play
I'll keep him out today
Come to me my only love
I have something sweeter to say
I don't always give it away

All through the day the world seems to keep us apart
And all though day I get such an ache in my heart

Then night comes
Pulls down the sun
Hard run
Nothing else can be done
Loved one
All the rest are forgotten
It's just you and me

Come to me my only love
Let's close up the house for the night
And keep the rest outside
Come to me my little dove
I fear that the cat snuck inside
But I know we'll both survive

All through the day the world seems to keep us apart
And all though day I get such an ache in my heart

Then night comes
Pulls down the sun
Hard run
Nothing else can be done
Loved one
All the rest are forgotten
It's just you and me
