

We're Coming To You

The Bird and the Bee

In the box again
Six walls just to close me in
In the stocks again
I punish me for where I've been
Is there anyone, anyone out there?
Is there anyone, anyone, anyone out there?

Come to me, pick my bones
Hold me close, bring me home

We're coming to you
We're coming now
Don't know why, it's just the way the wind blows
We're coming to you
Just like a sound
Don't know why, it's just the way, the way it goes
We're coming to you
We're coming now
Don't know why I feel the way I do
We're coming to you
We'll pull you out
I don't know why, I wish I didn't need you

Light as a feather
10 pounds could hold me down
Stormy weather
The wind and rain just push me around
Is there anyone, anyone out there?
Is there anyone, anyone, anyone out there?

Can you find me, I'm too small
Little pieces, off the wall

We're coming to you
We're coming now
Don't know why, it's just the way the wind blows
We're coming to you
Just like a sound
Don't know why, it's just the way, the way it goes
We're coming to you
We're coming now
I don't know why I feel the way I do
We're coming to you
We'll pull you out
I don't know why, I don't know why I need you

We're coming to you
We're coming now
Don't know why, it's just the way the wind blows
We're coming to you
Just like a sound
Don't know why, it's just the way, the way it goes
We're coming to you
We're coming now
Don't know why I feel the way I do
We're coming to you
We'll pull you out

Don't know why, I wish I didn't need you
