

Broken Soldier

The Black Angels

I wanna be able to close my eyes with you
I wanna feel save closing my eyes with you, with you

All in all we were tender at start
Painted with love
We knew where our homes were
Day one when the killing was done
I had a thought, could I do it or not?

It's hard to kill when you don't know whose side you're on
It's hard to kill when you don't know whose side you're on

Day two, when the orders were barked (?)
I knew in my heart that the line has been crossed, yeah
Flame throwing shot in my side
The blood wouldn't stop, ready or not men

It's hard to kill when you don't know whose side you're on
It's hard to kill when you don't know whose side you're on

Will you be the same when this is over?
Oh, you'll never be the same when this is over

I wanna be able to close my eyes with you
I wanna feel save closing my eyes with you, with you

When I got home it was a hell of a show
Dealing with love
Bullets in both legs
Maybe Babe when I feel save
I tell you one day, what happened to me

It's hard to kill when you don't know whose side you're on
It's hard to kill when you don't know whose side you're on

Will you be the same when this is over?
You'll never be the same when this is over
Will you be the same when this is over?
Oh, you'll never be the same when this is over
