

Estimate

The Black Angels

When you left at Spring
I thought I lost you
Never felt quite the same
Never let them shoot you down
They're killing our children
And I'm being protective
Well I am raising my height, all done
And I am losing sensation for you now

They searched our home again
I think they're on to something
I'll own my own mistake
Remember keep your head tucked down
It's kind of seductive
The handle they have on us
Never gonna lose you darling
Never let 'em shoot us down
Never gonna lose you darling
Never let 'em shoot us down

All we have is us and you left me
Everyone we know is converting
I would love to stay here
In this town
But they poisoned our water
(Nothing ever leaves, it just dies)
And I'm into protecting now [?]
(Remember when we never have to hide)
It's kind of seductive

Oh I
Will never shoot you down
Oh I
No I
Will never shoot you down
No I
No I
I will never shoot you down
No I
No I
I will never shoot you down
