

# Medicine

## The Black Angels

Across the water  
Painter's daughter  
Is what you need  
She's beautiful  
Medicine  
Medicine

Doctor prescribes  
Open up wide  
Take your portion  
Then make a fortune  
The blood is real  
Medicine

What portion are you after  
First love then the disaster  
On and on it's all you're after  
On and on it's all you're after

I see you and me  
Strung out and delusion  
Tears fall from your eyes  
Crimson [?]  
Fears fall from the sky  
Crimson [?]  
Pills fall from the sky  
Open up wide  
Love full of panic  
Red, white and blue secure our hearts

Ever since I saw her  
Across the water  
We danced in the sky  
A government high  
Hanged his daughter  
I hanged the slaughter

What portion are you after  
First love then the disaster  
On and on it's all you're after  
On and on it's all you're after

Maybe you and me  
Strung out and delusion  
Tears fall from your eyes  
Crimson [?]  
Fears fall from the sky  
Crimson [?]  
Pills fall from the sky  
Open up wide  
Love full of panic  
Red, white and blues cure our hearts
