

## Melanie's Melody

The Black Angels

I do like Melanie as much as I like you  
She is sweet, like the kisses that I get from you  
To me  
A basket full of pretty things yeah  
Between us

In my dreams everythings orange  
In my dreams everythings orange

When she starts moving yeah  
She's so natural  
You better follow lead  
In my dreams everythings orange

I do like melodies as much as I like you  
They are tough, its like the kisses were never enough for me  
To you  
A pocket full of pretty evil things  
Between us  
In my dreams everythings foreign  
In my dreams everythings foreign

When she starts moving yeah  
She's so beautiful  
You better follow lead  
When she starts moving you better go with her

In my dreams I will follow her

I can't lie, I was only with her and then I found you  
In my dreams everythings foreign  
Between us  
In my dreams everythings foreign
