

## Do I Know You

### The Black Box Revelation

Walking in a dream.  
Far from any meaning  
you're astonished I forgot your name

Trying to get things back  
from my memory bank  
nothing helps me  
make a mental chain

Hey  
Do I know you?  
Do I want to?

you might be sweet  
or lying through your teeth  
it's kinda freaky know ure well

the time has come for me to excuse myself  
you must have mistaken me for someone else  
next time we meet I may remember

Hey  
Do I know you?  
Do I want to?
