

Set Your Head On Fire

The Black Box Revelation

Secret place, secret time
Secret place to hide
Be wanted, dead or alive
No matter how

Didn't have the time to hold your fire
Didn't have the time to scream
Only had the time to be a liar
Only had the time to steal

Set your head on fire in the all black night
Set your head on fire in the all black night
Set your head on fire in the morning light
Set your head on fire in the all black night

Secret place, secret time
Secret place to hide
Be wanted, dead or alive
No matter how

Didn't have the time to hold your fire
Didn't have the time to be tired
Only had the time to sleep
Only had the time to steal

Set your head on fire in the all black night
Set your head on fire in the all black night
Set your head on fire in the morning light
Set your head on fire in the all black night
