## The Black Box Revelation

Where are you going?  
A walk in the dark  
Her eyes are glowing  
Tweaked to see bright

Cuz we walk  
Love's path with no sight  
The distance in our minds  
Her skin right next to mine

Keep on walking  
Soothing does hide  
I smell her roses  
The breath of my life

Cuz we walk  
Love's path with no sight  
The distance in our minds  
Her skin right next to mine

The night owl's moaning  
Lost to sleep as long as I  
Our eyes now glowing  
Tweaked to see bright

Cuz we walk  
Love's path with no sight  
The distance in our minds  
Her skin right next to mine
