

# Peace Anyway

The Black Crowes

You're not promised a hot meal  
It's just another raw deal  
Just another rainy day, everyday yeah  
So you say that you cannot relate No, no its not up for debate  
You know your bills they cannot wait  
But you still have time

You'll find peace anyway  
You'll find peace anyway

Just got to look baby, alright Listen

So your bright eyes, they don't shine  
And your watch, it don't keep time  
Well guess what, neither does mine  
Neither does mine  
It just makes you want to cry  
Just drink it all and say goodnight  
But giving up don't make it right alright, alright

You'll find peace anyway  
You'll find peace anyway

And well I know that you might get so scared  
Well, about what you find  
What it means to you baby when you get there

You'll find peace anyway  
You'll find peace anyway
