

Eagle Birds

The Black Keys

See twin eagle birds up
In the tree
One for you and there's
One for me

When we thought we
Might be losing our minds
We saw the signs

Don't nobody wanna be lonely
Everybody oughta be loved sometime

Feel you simmer down
In the pan
Feed me dinner right out
Of your hand

All night long I
Had you on my mind
Flying high

Don't nobody wanna be lonely
Everybody oughta be loved sometime
So love me right (Woo)

You can search forever you might
Never find
A love so real that will
Heal like mine

Eagle bird I
Heard you fly on by
Late last night

Don't nobody wanna be lonely
Everybody oughta be loved
Don't nobody wanna be lonely
Everybody oughta be loved sometime
So love me right
Flying high
You and I
