

# Fire Walk with Me

The Black Keys

Fire walk with me  
Tight as I can be  
Bruise my weary soul  
Flames now take control

Fire light the way  
Burn the night to day  
Bake in afterglow  
Everywhere I go

You're on fire  
Higher and higher  
Living in a fever dream  
Feeling that fire walk with me

Fire in the sky  
Burning ball of light  
The heavens are ablaze  
Flames are like a maze

You're on fire  
Higher and higher  
Living in a fever dream  
Feeling that fire walk with me

You're on fire  
Higher and higher  
Living in a fever dream  
Feeling that fire  
Give up every thought  
Feel that fire walk with me
