

No Purpose

The Black Pacific

I don't feel so good
I don't think that anyone should
What were you thinking? What were you drinking?
Jump into the fire? Or just keep on trying?
Got you wrapped around your finger
What were you thinking?

It really doesn't mean a thing - purpose to it all
No reason to believe

I don't feel so good
I don't know how anyone could
What are you fighting? Where's your defiance?
Do you join the delusion? What's your solution?
Got you wrapped around your finger
What were you thinking?

It really doesn't mean a thing - purpose to it all
No reason to believe

It really doesn't mean a thing - purpose to it all
No reason to believe

It really doesn't mean a thing - purpose to it all
No reason to believe

It really doesn't mean a thing - purpose to it all
No reason to believe
