

Away With The Fairies

The Blackmail

May
what it's wrong
But don't you stay
In the sun
Won't you come
All to play
I see you hide
Behind the gate

You don't share
What you've got
Save it all
And keep it locked
You want to place
You want to place
Me in mind
I say i'm save
I say i'm save
But you seem to be blind

Don't you see your dreams
Sleepin' down in me
You don't need to stop the rebellion
I push you in your dream

Come back, don't track
Come back, don't track

May
While your down
We can see
What went wrong
Yeah equipped
With a gun
And you shot
And you shot
All the revolt down

Don't you see your dreams
Sleepin' down in me
You don't need to stop the rebellion
I push you in your dream

You think your mind will change
All your life your mind is changed
You know that some will go some of them will never know
My head is mine and your head is yours
Don't try to change it that's the way it goes (repeated)

Don't you see your dreams
Sleepin' down in me
You don't need to stop the rebellion
I push you in your dream

Come Back (8x)
