

## Lamentation

### The Blood

After years of suffering - you are gone  
But you thought to enter - a better world  
...nothing like that  
You lie in a dark chamber - can't move aside  
Want to leave this place  
But your body's already dead  
Year after year you wait at this place  
And nothing happens - you get weaker and weaker  
The coffin starts to rot  
Sand's falling down and maggots eat your flesh  
Lamentation  
You want to scream, but you are dead  
Lamentation  
Feeding the time with your body,  
But the bones will survive  
Lamentation...Lamentation...  
Sand's falling down...
