

# Shut Up, Get Out

The Bones

Clean the pipes spin the wheel  
Check the metres, fuck the brakes  
Clear the way, I'm coming through  
A head of rust, a heart of chrome  
Another gallon is what it takes  
Pull over, I'm coming through

Yeah get away

Start up, heads down  
This piece of shit won't touch the ground  
It's time to get my engine humming  
Shut up, get out  
You wanna stear this motherfucker round  
I've got to keep my motor running

Shifting gear, overdrive  
No one's closing up on me  
No station's in my sight  
A one way road, one track mind  
Near on collision course  
Bury me in this wreck. but I'll cruise the night

Yeah get away

Start up, heads down  
This piece of shit won't touch the ground  
It's time to get my engine humming  
Shut up, get out  
You wanna stear this motherfucker round  
I've got to keep my motor running

I've got to keep my motor  
I've got to keep my motor  
I've got to keep my motor  
They wanna keep this mother down
