### The Books

[Reverse]Behold the finite set of thirteen convex figures  
The irrational sine versus tangent 45

Behold the finite set of thirteen convex figures  
The irrational sine versus tangent 45

And we genuflect before pure abstraction  
1.05946 twelfth root of two, amen

To begin again

To revenerate seven pieces  
endlessly manifold self-contained revealed (?)

With all respect we besiege the books of figures  
Make us your analog (?) to begin again
