

## My Country

The BossHoss

Where do you go? (Where do you go?)  
Me and I we're going from east down south.  
Where do you go? (Where do you go?)  
We're going from south to the wild west.  
Where do you go? (Where do you go?)  
We're on our way from west to north.

There he comes running, with a flag in his hands  
My country!  
My country!  
Don't you hearin' my country  
My my my  
My country!

Where do you go? (Where do you go?)  
I'm drifting along from north to east  
Where do you go? (Where do you go?)  
We're headin' the trail from east to west  
Where do you go? (Where do you go?)  
Myself and I are crossing countries

And no one never ever asks me to stay  
My country!  
My country!  
Oh can't you hear me? It's me country!  
My wave, my beach, my propriety!

A voice out of light and grace  
Is falling down from heaven's face  
It's tearing the skyline in two  
Where do you go, there ain't no room for you

It's my country!  
My country!  
My country!  
It's my country!

My country!  
My country!  
Oh man come on this is my country!  
My wave, my beach, my propriety!  
Yeah this is country!  
This is country!
