you're as sweet as candy
you're my rodeo queen
I'll take you out in the prairie to places you've never
seen
I'll take you up in the sky
come on and have a try, and we'll be
free like eagles my rodeo girl into the sky
we'll look down on this world
we'll fly so high come on and have a looks right

see the sunset in your eyes oh my little campfire flame feel the magic when we touch you know you're drivin me insane

Chorus:

it's just the way that you ride with me yeah babe I swear you knock me off a my feet just the way you talk so dirty to me just the way that you rock my body you rock my body

come on now baby show me yours and I will show you mine
I wanna take you on a rodeo ride
for a 1000 nights
I'll take you up in the sky
come on and have a try, and we'll be
free like eagles my rodeo girl into the sky
we'll look down on this world
we'll fly so high come on and have a looks right

see the sunset in your eyes oh my little campfire flame feel the magic when we touch you know you're drivin' me insane

chorus:

it's just the way that you ride with me
Lyrics yeah babe I swear you knock me off a my feet
Lyric just the way you talk so dirty to me
just the way that you rock my body you rock my Body
