

## Memory Camp

### The Brian Jonestown Massacre

Well you'll be so down  
You don't want it 'cause it's gone too far  
Shout and then scream about  
You might be sightless and you can't get out  
Dream and sleep at night  
Before we get this cause it feels alright  
Tear up and start again  
The game is rigged and you'll never win

While you're going to scream and shout  
You wait forever and your money's out  
Because you're about to feel good  
Open the doors and then let them in  
Somebody brought a piece of it  
You never get it 'cause it's gone too far  
Somebody tell you what it's all about  
They drain your skills and fill your heads with something
