

This Is the One Thing We Did Not Want to Have Happen

The Brian Jonestown Massacre

This is a bringing a thing that we load
The doctor (?) loading above
Look to the war that sudden in the space
And older band that works (?) influence
All that I've seen and all that I've known
And all of the pretenses I've had and I've blown
And all of the good times and sometimes the bad
Are all of the reasons that are making you mad
We were strangers before we met, we were strangers before we me
t
All that I've seen and all that I've known
And all of the pretenses I've had and I've blown
And all of the good times and sometimes the bad
