

# Trouble Train

The Brian Setzer Orchestra

The trouble train is comin'  
It's been rollin' through this town  
Since I don't know when  
The trouble train they call it  
And once you're on it  
You just can't get off it, my friend

Don't get on that train again  
It's rollin' and thunderin' 'round the bend  
If you hear the devil call your name  
Don't get on that trouble train  
Trouble train, trouble train

If you hear the devil call your name  
Don't get on that trouble train

The trouble train is comin'  
It's full of troubled souls  
Who have gone astray  
The trouble train is burnin'  
It's puffing smoke and fire  
And it's headed your way

Now don't get on that train again  
It's a long way down  
Please listen, my friend  
If you hear the devil call your name  
Don't get on that trouble train  
(Trouble train, trouble train)

If the devil's calling out your name  
He's riding on that trouble train  
Trouble train

The trouble train's left the station  
It's claimed another soul  
It'll come back again  
The trouble train's damnation  
Is a one-way ticket to the fiery end

Don't get on that train again  
It's a long way down  
Please listen, my friend  
If you hear the devil call your name  
Don't get on the trouble train

Don't get on that train again  
It's a long way down  
Please listen, my friend  
If you hear the devil call your name  
Don't get on that trouble train
