

Flying Like A Bird

The Bunny the Bear

Your touch, it's got me flying like a bird. (Why won't you say my name)
Your touch, it's got me flying like a bird. (Why won't you say my name)
Your touch, it's got me flying like a bird. (Why won't you say my name)
Your touch, it's got me flying like a bird. (Why won't you say my name)

Your touch, it's got me flying

got me flying

got me flying

got me flying

got me flying

got me flying

got me flying

got me flying

got me flying

got me flying

got me

Caught on, on fire by your eyes,
with the lights on I'd never go inside.

Caught on, on fire by your eyes,
with the lights on I'd never go inside.

Wish you told me you were lonely, wish you told me you were all alone.

She knows she'll never get out of here, she'll never get out.

She knows she'll never get out of here, she'll never get out.

Caught on, on fire by your eyes,
with the lights on I'd never go inside.

Caught on, on fire by your eyes,
with the lights on I'd never go inside.

Your touch it's got me flying like a bird...

"Let's get out of here".

Your touch it's got me flying like a bird...

"Let's get out of here".

Your touch it's got me flying like a bird...

"Let's get out of here".

Your touch it's got me flying like a bird...

"Let's get out of here".

Your touch it's got me flying like a bird...

Your touch it's got me flying like a bird...

Wish you told me you were lonely, wish you told me you were all alone.

Wish you told me you were lonely, wish you told me you were all alone.

Caught on, on fire by your eyes,
with the lights on I'd never go inside.

Caught on, on fire by your eyes,
with the lights on I'd never go inside.

Caught on, on fire by your eyes,
with the lights on I'd never go inside.
