We'll Take 'Em On

The Business

```
They tried to stop us with their rumours and their lies
They said "ignore 'em and we'll cut 'em down to size"
They didn't question that we'd fall
They said "They've beat us we've kept those bastards down
Our world's a better place without those fools around"
They didn't reckon on our call

We'll take 'em on
We're coming back they got it wrong
We're coming back we shall be strong

And now they reckon that we'll spoil their party game
Destroy their memories and drive their kids insane
They cannot see that they are blind
So the'll attack us with papers horror show
Divide and fool us make sure we don't grow
So let us pay them back in kind
```
