

## Forever

### The Cassandra Complex

Do you remember me, I knew you when you were three  
Do you remember me, I used to live in poverty  
But now I'm grown, I've felt the power of your attraction  
I wanna be with you, I want a piece of the action

Forever

I won't use force on you, I'll just use lies  
You'll send me presents, I'll send you spies  
I won't use force on you, I'll just use love  
You'll be my puppet, I'll be the hand in the glove

Forever

You say you'll forget about me, we'll wait and see  
Your friends will hate you, all you can think about is me  
You say you'll forget about me, we'll wait and see  
We'll wait forever, we'll wait forever

Forever

We could be together for ever and ever

Forever

Little Miss Parisienne of 1956  
I'll take your clothes off, slow but sure  
I'll smother your body in dollar signs  
If you'll only be mine, if you'll only be mine

Forever

When I touch you baby I feel like a hot air balloon  
I'm burning up inside  
All things are lights

Forever
