

# My Possession

## The Cassandra Complex

At last weve found the Golden Dawn  
At last we wake from all our dreams  
At last weve found the life inside  
At last weve found the Love Supreme  
My possession  
My possession  
My possession

Theres nothing ever can replace  
The feeling of belonging to the one you love  
The feeling that the chain is round your neck  
The feeling that the chain cannot be broken  
The feeling that the chain is always there  
The feeling that the chain is always there  
My possession  
My possession

At last weve found the Golden Dawn  
At last we wake from all our dreams  
At last weve found the life inside  
At last weve found a Love Supreme  
My possession  
My possession  
My possession

Im blind with fear when youre so near  
Im deaf and dumb when you are here  
Im everything when youre inside  
I come alive when you arrive

My possession

At last weve found the Golden Dawn  
At last we wake from all our dreams  
At last weve found the life inside  
At last weve found the Love Supreme  
My possession

My possession

You are my slave girl  
You are my toy  
You are the scorn of the world  
You are my joy  
Youre my possession  
Youre my possession  
Youre my possession

At last weve found the Golden Dawn  
At last we wake from all our dreams  
At last weve found the life inside  
At last weve found the Love Supreme
