

You Make Me Sick

The Cassandra Complex

I see you standing there
With your eyes so blue
You'll never know how much
I can hate your guts
I'd like to cut you up
I'd like to cut you up
There's nothing in your life
There's nothing in your life

You make me sick

And your stupid girlfriend
I'd like to fuck her brains
Drive her half insane
When she feels the pain
I'd like to cut her up
Her and all friends
There's nothing in her life
There's nothing in her life

You make me sick

I will cleanse the world (rpt. for whole verse)

You make me sick
