

Radio Song

The Cat Empire

Don't want to hear you say it's hot when something's wrong baby
Don't want to hear you say it's nothing when it's not cos I
Don't want to love you like that radio song honey
Don't want to love you like that radio song

Before we go I'd like to play with you again
Before we go I'd like to play that show we've been cos I
I want to love you like a festival song honey
I want to love you like a festival song

And when I see that morning light I'm going to hold you in my arms
And let the everything be fine or let it finally drift apart
We'd go back to that place where we met and made our mark
And when I see that morning light I'm going hold you in my arms
Or let you go

Now we return and for an hour these songs ignite
But one it sings for you I'd love you for a night more than
The memories of broken images and fights more than
The memories of broken images and fights
