

Casanova

The Cataracs

Hold your arms only wanna hold your arms (2x)

They call me casanova, but you're not over cause I only wanna hold your arms in mine (2x)
they call me casanova

to hot for the block I take ya to the top that hood a thug nature
make a lady like this camp glacia
don't make delish unless you bring greater
think great this should make way you fine you look great
aint what make you fly take your time no rushing I know you like em lines make you blushing
see the boys I aint who the fuck care
at the point ay boo I'm up here picture that real take a click of that when I kiss you kiss me back I miss you did you miss me back
crystile though you been seeing that but nah crystile on your wrists need that
when you got wire
hit me back

hey girl whats your name
hold up take a step back do you blow flames for sho
Imma pop some we can do it moving
wherever you want I let you do the choosing
yeah I'm pro choice I treat you the respect
keep your head on your shoulders not just giving me neck
oh what the heck she pin me down on the sofa started taking her clothes off
they call me casanova

from the top drop take it in the parking lot
don't try to play like you don't know who I am
I'm from the Space Boy
flick pro chick and if you don't you can roll with the pimp I bet you like famous huh
only trying to keep you smiling yeah
I take you to the island with the bright sunshine
you look so fine lying right there
hold that thought hold that thought
so damn hot if you tell me what you trippin skip the chit chat
back to my spot open up a bottle
let it pop make sure you door lock sure you the door lock
feeling crazy maybe selective talking
can we skip the talking
they call me casanova

(Chorus)
