

Polka Dots

The Cataracs

Sitting by the window
Thinking what you mean to me
By my side I feel you there
But it's only make believe

I know you want what I got
You're eyes are like polka dots
So tell me what you want
Let's make it hot

Cause I need you
Cause I need you
Cause I need you
Cause I need you

Look in my eyes what do you see?
Come inside I got the key
I wanna be what I'm not supposed to be
I'm just a fish in an open sea yeah
You could raise for my team
I see your face in my dreams
I wanna hear you breathe
Hear my thoughts set me free
C'mon girl take my hand
Piece to the puzzle part of the plan
I can see us on top
I'm the boss ahead of the block
Plus you could play my game
And you can smoke my cross
I asked her what's her name
She said polka dots

I still thinking about this day
And my polka dot girl
I'm gonna take you away

Give it to me hot
Give it to me cold
You know just what I want
I don't want anymore
I think I'm gonna break tonight
I wanna give you what it takes tonight
I don't want to be alone
I want you to be it
Remember the words
You whispered into my ear
Tell me how you feel tonight
Show me that it's real tonight

I still thinking about this day
And my polka dot girl
I'm gonna take you away

Sitting by the window
Thinking what you mean to me
By my side I feel you there
But it's only make believe

I know you want what I got
You're eyes are like polka dots
So tell me what you want
Let's make it hot
Let's make it hot
Let's make it hot
Let's make it hot
Let's make it hot
Let's make it hot
Let's make it hot

Welcome to the cataracs experience

But it's only make believe
But it's only make believe
Polka dots
