

Ready For The Weekend

The Cataracs

Flip the bottle, hop on this
Hundred Plutons ain't no sips
Turn the racks up in the building
From the roof down to the basement
Come take a trip through my ozone
Might just get my smoke on
So we passin out like Pacquaio
Gone then, I'm so gone

Your girlfriend is a Nissau, you thought she was a Bezzle
But it don't really matter 'cause to me she's just a rental for the weekend

Body do it right, finger to the sky
Floatin all night, ready for the weekend
Turn my music up, nowhere in lot oh
Alright, ready for the weekend

Tonight I'm going in love
You make me come up
Get ready ready ready for the weekend
Somebody come and get up
Shorty get up
Get ready ready ready ready ready ready ready ready ready for the weekend
Weekend!
Ready for the weekend

Fuck a bottle, hop on this
Hundred proves don't take no sips
For the last two and as my crew been winning
So I don't really give two shits about yall suckers, yall suckers
Rinkle Vosses to Mantaka
Through the winter until summer
Going stupid like GW
All my brothers, my sissies, brace your glass 'cause this is
A toast to spreading faster than your girlfriend's lipstick
The weekend

Body do it right, finger to the sky
Floatin all night, ready for the weekend
Turn my music up, nowhere in lot oh
Alright, ready for the weekend

Tonight I'm going in love
You make me come up
Get ready ready ready for the weekend
Somebody come and get up
Shorty get up
Get ready ready ready ready for the weekend
Weekend!
Ready for the weekend

We're swimming like balugas, been diving like a scuba
Club packed in the back of the VIP
Sippin slowly and contiguous
So we're swimming like balugas, we diving like a scuba
Club packed in the back of the VIP
Sippin slowly and contiguous

So we're swimming like balugas, we diving like a scuba
Club packed in the back of the VIP
Sippin slowly and contiguous
