

Like A Spanish Song

The Cats

Lailailai...

Stranded on the borderline
I'm wondering wich way to go
Back to where my heart is
Or faked for one more show

Oh, forget it all, I know it would be
The best thing I could do
I kiss it off and wrap it up
And leave it all for you, yeah

So take me if you want me
I won't be here that long
But if I'm gone, may I linger on
Your mind like a Spanish song

Lailailai...

Well, stranded on the borderline you got two ways to go
Now you can be yourself or be someone you'd like to
know
But to choose between the two is the hardest thing to
do
For no matter which way you go you'll end up being you,
yeah

So take me if you want me
I won't be here that long
But if I'm gone, may I linger on
Your mind like a Spanish song

Lailailailai...
