See The Way

The Chainsmokers

I go from okay, I'm okay to I'm not okay in point two
I go from cool in my new place to packing my suitcase like you
I said it over and over that I wouldn't do this
Go find someone new and just f*ck my way through this
But no way or no way I'm okay when thinking about you

You were right when you said it
Keep my cards to my chest and I never let no one know me
I pushed you out
Now, I get that you needed
Just a little more love and to just see me wide open and breaki
ng down

When no one's there to listen I will heal your pain
I know that I was less than but you know people change
So, tell me what's the difference if we still feel the same
It takes a little distance to make you see the way

Deleted your photos, I know what I thought it would do
And I know what you're thinking that's never something I would
do
I wish I could lie but I'm so not a liar
Been trying and I try to pretend that I'm fine but I
Just end up lying, yeah, feeling more than I want to

You were right when you said it
Keep my cards to my chest and I never let no one know me
I pushed you out
Now, I get that you needed
Just a little more love and to just see me wide open and breaki
ng down

When no one's there to listen I will heal your pain
I know that I was less than but you know people change
So, tell me what's the difference if we still feel the same
It takes a little distance to make you see the way
