

Come In Number 21

The Charlatans

I keep no money in holes in the country
You were no brother of mine
And I've heard for ages, that you're in the good books
You are no brother of mine
I don't remember the last time I saw you
You were to off (up) for the time
And I'll keep on coming and you keep on running
The future is nothing it's mine

Keep it together for now and forever
I know your university
And you and whose army, I can't see it workin'
Your future is nothing it's mine

I wish I could drive, settle to rewrite
You've found a place in heaven
You're a liar so go
